

Roman Candle

Morgan Wade

You've got those eyes
That wanna run away
I hope you realize
I'm gonna need you to stay
Need you to stay, yeah

Hold me, hold me real close
Right by your side and never let me go
I need you here
Yeah, baby, I need you here
Hold me, hold me real tight
Rock me steady all through the night
I need you here
Yeah, baby, I need you here
I need you here

You light me up like a Roman candle
Send me in the air
I'm a little bit hard to handle
You don't seem to care
You don't seem to care, yeah

Hold me, hold me real close
Right by your side and never let me go
I need you here
Yeah, baby, I need you here
Hold me, hold me real tight
Rock me steady all through the night
I need you here
Yeah, baby, I need you here
I need you here

Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely, yeah

You've got those eyes
That wanna run away
I need you to stay

Hold me, hold me real close
Right by your side and never let me go
I need you here
Yeah, baby, I need you here
Hold me, hold me real tight
Rock me steady all through the night
I need you here
Yeah, baby, I need you here

Hold me, hold me, don't leave me lonely
I need you here
Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely

Hold me, hold me, don't leave me lonely
Hold me, hold me, don't leave me lonely
