

# Drinking Til It Does

Morgan Wallen

At the bottom of a bone-dry rocks glass  
There's a memory that looks like us  
I keep tryin' to lose it, and drinkin' doesn't do it  
But I keep drinkin' 'til it does

The walls are buzzin' like a neon freight train  
And I'm a ways away from sobered up  
Still goin' through hell and drinkin' doesn't help  
But I keep drinkin' 'til it does

'Cause I've tried drownin' in a whiskey river  
And I ain't found my way down to the bottom yet  
I've tried burnin' out the things I remember  
But there's still a lot about you I can't forget  
There was a time I was still somebody  
Somebody like you could love  
And I know there's some things that drinkin' doesn't change  
But I keep drinkin' 'til it does

I know I'm probably lookin' at forever  
'Til your "Miss me?" makes my phone light up, bet you  
Took out my number, and drinkin' doesn't numb it  
But I keep drinkin' 'til it does

'Cause I've tried drownin' in a whiskey river  
But I ain't found my way down to the bottom yet  
I've tried burnin' out the things I remember  
But there's still a lot about you I can't forget  
There was a time I was still somebody  
Somebody like you could love  
And I know there's some things that drinkin' doesn't change  
But I keep drinkin' 'til it does, yeah

I've tried callin' different blue eyes, baby  
But the bed is cold when I wake up  
What drinkin' doesn't do is make somebody you  
But I keep drinkin' 'til it does  
Nah, drinking don't erase all my damn mistakes  
But I keep drinkin' 'til it does
