

LA Night

Morgan Wallen

This hotel room says "No smokin'"
She's outside with the door slid open
T-shirt, nothin' underneath it
Sativa dancin' right off of her lips

I'm on the bed, sippin' red Johnny Walker
Strummin' chords, tryin' to write her a song
She don't know it, but I just caught her singing along, singing along

You're too damn pretty to be thinkin' 'bout sleep
Baby, come back inside and help me tangle these sheets
Twist some lime in your liquor, leave some glitter on me
Stop my world on a dime, it's only quarter past 3
Don't want nothin' on you but the TV light
Get you high as a hill with a Hollywood sign
If you wake up in love with some bloodshot eyes
Blame it on a country boy on a LA night

Ah, get to free-fallin'
Stayin' up like the stars over Mulholland
Ridin' off in the sunrise, down Sunset
But baby, we ain't there yet

You're too damn pretty to be thinkin' 'bout sleep
Baby, come back inside and help me tangle these sheets
Twist some lime in your liquor, leave some glitter on me
Stop my world on a dime, it's only quarter past 3
Don't want nothin' on you but the TV light
Get you high as a hill with a Hollywood sign
If you wake up in love with some bloodshot eyes
Blame it on a country boy on a LA night

A LA Night
Thinkin' 'bout a LA Night in the broad daylight
With a smile on your face from thinkin' 'bout the way that you felt with me

On the bed, sippin' red Johnny Walker
Strummin' chords, tryin' to write you a song
You don't know it, but I just caught ya singing along, singing along

You're too damn pretty to be thinkin' 'bout sleep
Come back inside and help me tangle these sheets
Twist some lime in your liquor, leave some glitter on me
Stop my world on a dime, it's only quarter past 3
Don't want nothin' on you but the TV light
Get you high as a hill with a Hollywood sign
If you wake up in love with some bloodshot eyes
Just blame it on a country boy on a LA night

A LA Night
A LA Night
A LA Night
