

Stand Out

Morgan Wallen

It don't matter if we're out under New York lights
Or taking in the scene on Ocean Drive
Or standing underneath that Hollywood sign
In California
I always seem to miss it all
I can't focus, I get lost
And I think you know it's all your fault
Now baby, don't ya?

You ain't no blend in baby
I can't just take one look
Everything around you fades to black
And just like that, I'm hooked
Girl you don't need stilettos
To turn them heads around
You ain't gotta worry 'bout getting lost in a crowd
Oh, baby, you're a stand out (in your own league, so elevated)
Oh, there ain't no doubt (you ain't routine, you're so far from basic)

I wanna find a club and show you off
When we roll in it won't take long
Every guy with a girl, yeah, they gonna get caught
Looking
And I can't blame 'em
And girl you look famous
If I was in their shoes
I'd do the same, 'cause...

You ain't no blend in baby
I can't just take one look
Everything around you fades to black
And just like that, I'm hooked
Girl you don't need stilettos
To turn them heads around
You ain't gotta worry bout getting lost in a crowd
Oh, baby, you're a stand out (in your own league, so elevated)
Oh, there ain't no doubt (you ain't routine, you're so far from basic)

I always seem to miss it all, yeah
I can't focus, I get lost

You ain't no blend in baby
I can't just take one look
Everything around you fades to black
And just like that, I'm hooked
Girl you don't need stilettos
To turn them heads around
You ain't gotta worry bout getting lost in no crowd
Oh, baby, you're a stand out (in your own league, so elevated)
Oh, there ain't no doubt (you ain't routine, you're so far from basic)
