

## On The Other Side

Morgana Lefay

If i open up my mind  
and receive the other side  
where the day reflects the night  
in frenetic timeless time  
and knowledge is a well  
there in heaven there in hell  
where every thought and fantasy  
is reality

on the other side in the immutable  
eternity  
on the other side in the impalpable  
eternally

there i face my soul  
angelical - unbound  
(a) shadow of the free  
forever meant to be  
and the presence that i feel  
from my kindred soul  
strengths my life - my energy  
through eternity

on the other side in the immutable  
eternity  
on the other side in the impalpable  
eternally

there i've found the power  
the secret source  
the grand materia  
the shadowstone - my soul

(there i drink the knowledge)  
(there i find the truth)

but it can be hard to stand  
the menacing and sad  
that is beyond my grasp  
like heartbeats in the vast  
that entity that's haunting me  
searching for my soul  
it's everywhere - unreachable  
not tangible

on the other side in the immutable  
eternity  
on the other side in the impalpable  
eternally
