

# Snakestate

Morgoth

One nation, one aim  
Somebody to acclaim  
You follow your leader

One vision, one mind  
All reasons left behind  
Adore your false redeemer

This is the dawn of the Antichrist  
This is the spirit that denies

A moral decline  
You're forced into the line  
Bow down before your master

A triumph of hate  
Dismay of every shade  
A legion of disaster

I see the rising flood  
With streams of human blood

The fear inside their hearts  
A solid soil for inhuman excess

Desperation and disparity  
The perfect way to control and regress

Eye for an eye, tooth for a tooth  
Abominations of the horrible kinds

We are close upon the gates of hell  
This is the downfall of mankind

Welcome to the snakestate  
The land of darkness and decay  
Now that we found it's too late  
The world we knew has passed away

Disaster is grown  
A violent seed is sown  
It's spreading like a cancer

The countries collide  
Divided deep inside  
A nation with no answer

This is the dawn of the Antichrist  
This is the spirit that denies

I see the rising flood  
With streams of human blood

Welcome to the snakestate  
The land of darkness and decay  
Now that we found it's too late  
The world we knew has passed away

Welcome to the snakestate  
The land of darkness and decay  
Welcome to the snakestate  
The world we knew has passed away
