

Excuse My Rudeness, But Could You Please RIP? (殴るぞRIP)

Mori Calliope

Minasan!

Kyō no tanoshī raibu haishin ni kitekurete makotonī arigatōgozaimasu
Kyō no rappu shitai to omoimasu. Dewa, hajimemashou ka?"
Fuck it

Modern-day killers really must hate fun
More often, people takin' lives rockin' knives and guns
The real murder connoisseurs in the ruins of hell
Got used to luring the audience with moe that sells, 'cause
To my surprise, snatching' lives Toriaezu kinshi
Nice try, stoppin' the motherfuckin' Da Vinci
Of human erasure, can't stop the pace, sir
Make sure when "standing off" my rhymes slay first
Jealous haters out there, high-five! I see you
"No one's gonna buy this." Bitch, I believe you!
Cute as all hell, in a literal sense
A bitter pretense
But the views are all tell, no show, dollars and cents
Don't mean nada to the queen of "sayonara"
Scythe and other super radical toys to tear your heart
Apart at the seams, still the killer of your dreams!
Slip your soul into my pocket, then I flee the scene-
It's like that

If you take my advice, you'll get killed by what'cha don't know!
But the other saying that I like so much more
Is along the lines of "you reap what you fuckin' SEISO"
Gotta know, ain't it so, could ya let go of your soul for me?
SugoiDIEsuki □
I'm not asking for much: do me a favor and die?
Gomen, shitsureishimasu ga shindekudasai

"Kill 'em with the bass"
Korosu no koto gaTANOSHII
(Teehee, bitch)
Murder is so fucking kawaii
(Kawai, ne!)
Shinigami sensei +Calliope!
Kill 'em with the bass, 'til we get 'em to say:
Alright! "YAY! sutekina ansatsu □"
So it goes:

"Dead Beats, listen up!" It's what'cha want?
Me comin' in the night for ya!
Katte ni yatteru jigoku de hanzai janaikara ~
Bass high enough to exterminate ya
You'll dance anyway, 'cause it's human nature
Demo, sono zen nantonaku issho ni tanoshimou □
Anata no shinu hi made!

Mōshiwakenaidesu, yari sugimashita
Nande keigo de rappu shi teru? Chotto henda
Not what you expected? Better tell you straight-forward
Hear you all the way in hell, slamming on your keyboard
Go ahead and BE sore, but I won't run
'Cause I'm a workaholic business-lady getting shit done
Taking souls? Not an industry for suckers, for one

But it's a mistress of darkness's day in the sun~ (Ki mo I...)
C A double L I O P E
I really love this fake-murder shit's eye-opening
Taking words I get right off the cuff, and script my own thing
"Murder with words ain't enough?" that was the past me! (Sorry~)
Gonna take a first-class master V to blast me
Humans, come at ME, I'm "masochistic" actually
Huh... whatever that means. (Nan?)
Yes, whatever that means
Come a little closer kuso tori
Then laugh at me (Sup bitch?!)

If you take my advice, you'll get killed by what'cha don't know!
But inside, I'm kinda nervous and I don't know what the word is
For the other side of the gap? FUCK IT, "seiso" !
Setting out, do as I'm supposed to do, I'll get close to you
Don MaiDIEjōbu □
If it's alright with you, could I end your life?
