

# Make 'Em Afraid

Mori Calliope

What I want is at my fingers, yeah

What now? Stop running  
Ya know me as that chick who won't back down  
I'm coming  
The gun who threatens your empire  
A fire, an urge to be bad  
You can't expect to meet the angel that you had

Now! The tables have turned, hah  
The bridges I burned with desire  
For human applause, plause  
Rewind and relive and relay  
All the Shi that I've wanted to say (To say)  
I beckon you all to be part of, ah-ah  
The making it known, my assent to the throne?

Human kind's got secret lusts  
A voice to take them higher  
I got no delusions (Delusions)  
My own revolution  
Your misconstrued  
Myth come true  
Come on! Make 'em afraid of ya

Hey! Na-na-na-na  
Make 'em afraid of ya  
Yeah, yeah!  
Make 'em afraid of ya

Guess I'm the Queen of Fools!  
They see what they wanna, no duh  
Said to myself "no losing"  
"Make 'em afraid of ya"  
Ready to break some rules  
An evil ya can't help but love  
If you got the stuff to prove it  
Make 'em afraid of ya

Too far?  
I'm outta my mind  
Chase the night  
Slay the light  
Feel the animal seeking a bite  
Bare my teeth cry out as I clench through the pain  
Nay-sayers want nothing to change  
And their prayers are jaja jama!

So what?  
Ya think I'm no good?  
Don't act like gods should?  
The joke's on you, the sky's their limit!  
Disguise my ambitions  
Make my own decisions  
Defiant, on the brink  
Watch their kingdom start to fall

Human kind's got secret lusts  
A voice to take them higher  
I'm ready and willin'  
So make me your villain  
Your misconstrued  
Myth come true  
Come on! Make 'em afraid of ya

Hey! Na-na-na-na  
Make 'em afraid of ya  
Yeah, yeah!  
Make 'em afraid of ya

If you got the stuff to prove it

(Yeah, yeah, hah)  
Goodbye  
To life on the cautious side  
I'll watch as it burns down

I got no delusions  
My own revolution  
Your misconstrued  
Myth come true  
Come on! Make 'em afraid of ya
