

Glow

Moriah Peters

So many lights on in this city
The people still walk in the dark
I watch them as they're passing by me
I hide the truth inside my heart

'Cause I'm afraid to lose control
I'm comfortable
But there's something in my soul
They need to know

Shine, shine, shine tonight
It's time to let it show
Burn bright, light the fire
That leads the way to hope

The Maker of the stars lives in our soul
We have His light, what are we waiting for?
Get out and glow, get out and glow

If we loved with no hesitation
We would hold the purest light
So spark a holy revolution
Against our fears, we can't be quiet
The city on a hill can't be displayed
Until we take our faith, set it ablaze

Shine, shine, shine tonight
It's time to let it show
Burn bright, light the fire
That leads the way to hope

The Maker of the stars lives in our soul
We have His light, what are we waiting for?
Get out and glow, get out and glow

If we don't go, how will they know?
The love we show, get out and glow

Shine, shine, shine tonight
It's time to let it show
Burn bright, light the fire
That leads the way to hope

Shine, shine, shine tonight
It's time to let it show
Burn bright, light the fire
That leads the way to hope

The Maker of the stars lives in our soul
We have His light, what are we waiting for?
Get out and glow, get out and glow
Get out and glow, get out and glow
