

Hasta Mañana

Moriah Peters

This feeling's all too familiar
The world's about to end
It's like the sun always falling down
Just to get up again

And I don't get to choose if I get to live to 90
Can't tell the future to give me a dime and
When I'm with you I forget what the time is
My worries will have to wait

Hasta mañana
Hasta mañana
Until tomorrow
I could cry all night
But I don't wanna
Hasta mañana

Take in the Tennessee sky tonight
And if a star should fall
It doesn't mean that we're gonna die
Just make a wish, that's all

And I don't get to choose if I get to live to 90
Can't tell the future to give me a dime and
When I'm with you I forget what the time is
My worries will have to wait

Hasta mañana
Hasta mañana
Until tomorrow
I could cry all night
But I don't wanna
Hasta mañana

Why don't we quiet all the sirens and the warnings
It's nothing we can't face
And when my troubles meet me early in the morning
I'll look at them and say

Hasta mañana
Hasta mañana
Until tomorrow
I could cry all night
But I don't wanna
Hasta mañana
Hasta mañana
Until tomorrow
I could cry all night
But I don't wanna
Hasta mañana
