

Cottonflower

Moriarty

You are my cottonflower
You are the one for ever
Your smile is like a little wrinkle
Don't suffer babe, just let it trickle
This is my lucky hour
Let us spend it together
You keep me warm each time I travel
You give me shelter from the drizzle
Sing this song for you to sing when I'm gone
I'm bleeding bleeding hard
You are my cottonflower
I ain't nothing but a lonely rider
I do not know who is right who is wrong
Sing this song for you to sing when I'm gone
I am your purple spider
My holes are getting wider
Even though I hear the robins crying
I don't worry 'cause I'm only dying
Sing this song for you to sing when I'm gone
It don't hurt no more Ma
You've seen a thousand like me
I'm not the first one
I'm not the only one
The best one
The worst one
And last one
You've seen a thousand like me
Won't you turn off your T.V.
I ain't nothing but a lonely soldier
I don't know who is right who is wrong
Sing this song for you to sing when I'm gone
I'm gone, now I'm gone
I'm gone
You are my cottonflower
You are my cottonflower
Farewell cottonflower
Ants are riding on my chest
Soon I'll return to dust and rest
