

Can't Hold A Candle

Morissette

Other men may try getting my attention
But their attitudes make me yawn
What you got is way beyond their comprehension
I'm not easily turned on

Honey can't you see you don't need to worry
They don't pose a threat
I'm all set...

Listen to me
I can't believe that you're
Feeling insecure
If you only knew
Nobody else
Can raise my temperature
They can't hold a candle to you

When I said I love you babe, I meant forever
Through the silent times and the noise
Baby ever since we have been together
Other guys are just little boys

You got something else, something I can count on
You're not like other guys in my eyes

Listen to me
I can't believe that you're
Feeling insecure
If you only knew
Nobody else
Can raise my temperature
They can't hold a candle to you

Ohhh...
Do you really think I could be distracted
I've already been blessed with the best

Listen to me
I can't believe that you're
Feeling insecure
If you only knew
Nobody nobody nobody else
Can raise my temperature
They can't hold a candle
They can't hold a candle to you
I can't believe that you're
Feeling insecure
If you only knew
Nobody nobody nobody else
Can raise my temperature
They can't hold a candle to you
