Don't Forget

Morissette

Counting down the days
Till you come back home
Dreaming of your touch
Lying here alone
I know you had to go
I accept that fact
My love will still be here
When you do come back, baby

Please don't forget to drop a line
Just let me know that we're still fine
And please don't forget to call sometime
Don't forget I'm yours and you are mine

When you go away
I act as if I'm strong
But I just can't stand
Missing you so long
I know this is how it is
And nothing can be done
And even when you're far
I know you're still the one, baby

Please don't forget to drop a line
Just let me know that we're still fine
And please don't forget to call sometime
Don't forget I'm yours and you are mine

Please don't forget to drop a line
Just let me know that we're still fine
And please don't forget to call sometime
Don't forget I'm yours and you are mine
