

Leave Em At The Door

Morissette

All your inhibitions
All your expectations
Rules and regulations
Whatchoo bringing that stuff in here for?

I got a choice and I'm not afraid to choose it
I got a mind and I'm not afraid to lose it
I got a body and I'm not afraid to use it
I could dance all night baby
I got rhythm and I'm not afraid to feel it
I got hurt and I know how to heal it
I got a secret and I might reveal it
If you're really nice to me

All your inhibitions (leave em at the door)
All your expectations (you can leave em at the door)
Rules and regulations (leave em at the door)
Whatchoo bringing that stuff in here for?
Your worldly worries (leave em at the door)
Yesterdays hangups (you can leave em at the door)
You came to the right place, we got the cure
Give it to the door man, you don't need em anymore

I got style and I'm not afraid to show it
I got class I think you already know it
Don't get serious baby or you'll blow it
That's my golden rule
I got soul and I'm not afraid to rock it
I got my own world baby, don't you knock it
If you came packing honey leave it in your pocket
That just isn't cool

All your inhibitions (leave em at the door)
All your expectations (you can leave em at the door)
