

Phoenix

Morissette

Fighting everyday
Doesn't feel like living
So much on my plate
So much on my mind
Tryna numb the pain
None of it is working
Don't wanna dig this grave
While I'm alive

There's a hope that comes with the morning
There's a chance to start over again
Just as long as our hearts keep on beating
There's still time left to win

So let's shine like the sun
Rise like a phoenix
Take to the sky
'Cuz we got no limits
Don't be afraid to reach for the stars
'Cuz we were made to go that far

So much now has changed
Finding new perspective
Not an easy fate
But will be worth the ride
And we will carve the way
Crossing through the valleys
Don't wanna be afraid to be alive

There's a hope that comes with the morning
There's a chance to start over again
Just as long as our hearts keep on beating
There's still time left to win

So let's shine like the sun
Rise like a phoenix
Take to the sky
'Cuz we got no limits
Don't be afraid to reach for the stars
'Cuz we were made to go that far

There's a hope that comes with the morning
There's a chance to start over again
Just as long as our hearts keep on beating
There's still time left to win

So let's shine like the sun
Rise like a phoenix
Take to the sky
'Cuz we got no limits
Don't be afraid to reach for the stars
'Cuz we were made to go
We were made for more
We were made to soar that far
