

# True North

Morissette

Lost at sea  
I've been drifting here for quite some time  
Aimlessly  
I've been wandering without your light  
Maybe we could be  
Back together in our paradise  
You and me  
Is there any way to turn back the time

You  
Have always been my true north  
Now here I am  
Following your star  
You  
Have always helped me through the storms  
And my compass keeps  
Pointing to where you are

Your love's so sweet  
That is something I just can't deny  
If you hide I'll seek  
Until the day that I can hold you tight

I don't want to go back  
To a life lived without you  
I don't want to look back  
And say "she was the one"

Even if I have to  
Struggle beside you  
I'd still have that over  
The easy way out

'Cause you  
Have always been my true north  
Now here I am  
Following your star  
You  
Have always helped me through the storms  
And my compass keeps  
Pointing to where you are

Yeah, oh yeah  
Oh  
Oh

I'm just gonna stay here  
Everyday I'll pray 'til  
You're in my arms  
Yeah  
I'm just gonna wait here  
And have a ton of faith dear  
No matter how long

Baby you  
Have always been my true north  
Now here I am

Following your star  
You  
Have always helped me through the storms  
And my compass keeps  
Pointing to where you are  
To where you are
