

Find Colour

MorMor

I don't fear the wicked inside, my dear
What goes on here is worth our time
You said your prayers before falling into despair
There's not anywhere you'd rather hide, hide
Your mind is mine

It's you that lost your hope
No telling when you'll fall, fall, fall

I find colour
I hope you find colour
I find colour
I hope you find colour

Waste away, don't worry, we can stay
What is gone is hard to find
Fear what's there, what haunts you behind your stare?
There's not anywhere you'd rather hide, hide
Your mind is mine

You always could've known
There's never letting go, go, go

I find colour
I hope you find colour
I find colour
I hope you find colour

I find
Hope you find
Find colour, find colour
I hope you find colour

I find
Hope you find
Find colour, find colour
I hope you find colour
