

Make Believe

MorMor

Can't get out
It isn't simple
Hold your head high
Take your best shot
I can't feel like I do
I need closure
To where it ends
That's when I feel alive

So alive, so alive, so alive

I should have waited
I said wash your hands over me
Just couldn't shake it
It would never let go of me
Hear the sound, it's make-believe
Make-believe
Make-believe

If it bends
Then it'll blend like patches
Hold their grin
It might break you down
Chase its tail
Until it's over
Take the pill
Second to nothing

I should have waited
I said wash your hands over me
I couldn't shake it
I could never get over it
Hear the sound, it's make-believe
Make-believe
Make-believe
