

# Outside

MorMor

Leaves just fall  
Lost my way again  
Lights me still  
Where it starts to bend  
Lonely heart  
Visit me but it's cold

Looking outside  
I'm scared to die  
The sky won't hold light  
It leaves me blind  
How can I find the sun?  
Looking outside  
Looking outside  
Oh, what's the use?  
The sky won't hold light  
It leaves me too  
How can I find the sun?  
Looking outside

Lost control  
Hear it calling in  
The room was small  
Walls were closing in  
Won't you wait  
Lose the trace but it's cold  
Ah-ah, ah

I don't have the heart  
It takes hold of me  
Felt a world apart  
It takes hold of me

Looking outside  
I'm scared to die  
The sky won't hold light  
It leaves me blind  
How can I find the sun?  
Looking outside  
Looking outside  
Oh, what's the use?  
The sky won't hold light  
It leaves me too  
How can I find the sun?  
Looking outside

Looking outside  
I'm scared to die  
The sky won't hold light  
It leaves me blind  
How can I find the sun?  
Looking outside  
Looking outside  
Oh, what's the use?  
The sky won't hold light  
It leaves me too  
How can I find the sun?

Looking outside
