

Quiet Heart

MorMor

That's when I sing
Lose faith
Peace won't come
Love won't save
How I keep running
From my name
Hear me calling out
Years spent alone
My head
Quiet storm and I'll
Fall again
Distance left me spent
Nights lament
How we dance towards the end

And I sang with you close
Quiet heart in the cold
I can't hide, can't turn the tide
Hear me now calling out

Quiet heart, quiet heart
Quiet heart, quiet heart
Quiet heart, quiet heart
Quiet heart, quiet heart
Quiet heart, quiet heart
Quiet heart, quiet heart
Quiet heart, quiet heart

Years spent alone
My head
Heaven knows that I'll
Fail again
Days just came and went
I descend
How we dance towards the end

And I sang with you close
Quiet heart in the cold
I can't hide, can't turn the tide
Hear me now calling out

I can lose sight
I can fall right in place
I can lose way
The silence will break
I can lose hope
The distance I face
My quiet heart

I can lose sight
I can fall right in place
I can lose way
The silence will break
I can lose hope
The distance I face
My quiet heart

I can lose sight
I can fall right in place
I can lose way
The silence will break
I can lose hope
The distance I face
My quiet heart
