

## Quemar Las Fronteras (reveille li)

Morning Glory

The way for you is shut my friend  
Find it blocked by ignorance  
The civil sentries' fence  
Keeps the poor outside the wall  
Control apartheid comptroller  
You are not welcome hence

Here now are lines you can't cross  
Built and maintained at your cost  
Corrupt from the pen to the fence  
At many our own blood's expense

No more will borders hold us from the world we own  
We are all global citizens free to roam  
Burn imaginary lines of land owners  
No longer governments will hold us prisoners  
(O vamanos - home is close - so vamanos)

The ostentatious walls display  
The upper class' right of way  
The opulence and lie  
This world was made for you and me  
It belongs to none and all for free  
Clan terra firma, try

Cuz baby I'm Jesus upside down  
And you-you are Judas with a crown
