

# If You Weren't Afraid

Giorgio Moroder

If you were not afraid of flying, We could leave the ground  
If you were not afraid of trying Out the love we found We could be  
having fun, Oh baby, We could party down

If you weren't afraid To let it go If you weren't afraid To let  
it show

If you were not afraid of opening Your heart to me If you were  
not afraid, I'd show you what you never see We could experience  
a pleasure trip For all your song

If you weren't afraid To come along If you weren't afraid To ge  
t it on

[Instrumental]

If you were not afraid of flying, We could leave the ground If  
you were not afraid of trying Out the love we found We could be  
having fun, Oh baby, We could party down

If you weren't afraid To let it go If you weren't afraid To let  
it show

[Instrumental]

If you weren't afraid To let it go If you weren't afraid To let  
it show

If you weren't afraid To come along If you weren't afraid To ge  
t it on

If you weren't afraid To let it go If you weren't afraid To let  
it show
