

Lunch In Hell

Morphine

You can taste the leather that you made me ride
You'll probably be too hot to smile
You'll be down here anyway
So let's have lunch in hell today

I recommend it black and done
But I cannot leave to try it puts on
And I know that you'll be here anyways
So let's have lunch in hell today

I know a little place. It's out of the way
We'll discuss the girls and mistakes I made
We'll discuss the girls and mistakes I made
Let's have lunch in hell today

Did I tell your brother that time I was four years old
Did I ever show you my scars before?
You can taste the leather that you made me ride
You'll probably be too hot to smile
