Put It Down / Wo-Oh

Morphine

Let's put it to bed lets put it down
Let's not talk about it not right now
On my dying day, I might be able to say
I finally see things all your way

You know I was raised with the strength of heart
But if you touch me wrong I fall apart
I found a woman who's soft but she's also hard, yeah
While I slept she nailed down my heart

Well, I run good but I'm hard to start
And my brakes are bad so I'm hard to stop
Yeah
I found a woman who's soft but she's also hard
While I slept she nailed down my heart

Well, I think about sex nearly all the time
I haven't cried since I was eight or nine
Competition makes me come alive
I can't decide how I feel inside
