(Wes)  
(Firzt back like he left or somethin')

I feel like Cole in this cold world  
Feel like DaBaby, got the Glock in my hand  
And I bet it won't jam  
The best place in the whole world  
I made it out of the sand  
And learned to add up them bands

Bitch, I'm from Carolina  
I got that blue inside my blood  
Bitch, I'm from Carolina  
And if you do not fuck with us  
Fuck you from Carolina  
Man, where you from? Don't give a fuck  
Bitch, I'm from Carolina  
Got love for Carolina

I'm from a state that tell it like it is  
Where niggas push up in them big trucks, was on 26  
But niggas rob like it's they job to have some benefits  
That would kill you if they have to for they benefit  
That's just what it is  
Hot days, nights like resurrections  
Duckin' the cops and hide on the streets right off the intersections  
Gotta watch for dead, watch how you steer, follow directions  
You just a permit away from having a gun collection  
I love my Smith & Wesson

I feel like Cole in this cold world  
Feel like DaBaby, got the Glock in my hand  
And I bet it won't jam  
The best place in the whole world  
I made it out of the sand  
And learned to add up them bands

Bitch, I'm from Carolina  
I got that blue inside my blood  
Bitch, I'm from Carolina  
And if you do not fuck with us  
Fuck you from Carolina  
Man, where you from? Don't give a fuck  
Bitch, I'm from Carolina  
Got love for Carolina

I come from a place where everybody pray  
Where all you get is real, so, nigga, keep the fake  
Gotta keep the steel, I feel that keep me safe  
And God, we trust for sure, I gotta keep the faith  
Fuck the help, I'm so self-sufficient, learned that from my city  
910 to the 704, I know you rockin' with me  
9-9, One hell of a dime, man, your city fine  
I got a secret love for GB, 336 be on my mind

I feel like Cole in this cold world  
Feel like DaBaby, got the Glock in my hand

And I bet it won't jam  
The best place in the whole world  
I made it out of the sand  
And learned to add up them bands
