

# Good Day

Murray

Ha, brainstormin'  
Hella clouds in the room, you know that brain flowin'  
To the top and past the opps is where Murray goin'  
So many people pray I fall, but I ain't goin'  
Time will tell who will fail, will you fight to prevail?  
I'm feelin' divine, so Miss Loretta, go 'head and excel  
I can't hit the brakes, it's all gas, I got to accel'  
It's a gallery in my department, I live to excel  
Get your shit, boy  
Too large, I'm livin' big, boy  
An outcast turned a big boy  
Spend three stacks on my lil' boy (This shit too easy)

Can't overcompensate, if it's fake, I can't relate  
Who better? There's no debate, smoke is free, I brought the vape  
Fuck the album, drop a tape, locked in, I can't escape  
Blow it down, meditate, higher shit, levitate (Oh yeah)

I'm in a good space (Good space)  
Smoke away the pain and have a good day (Good day)  
Tired of bad bitches, need a good bae (Good bae)  
L, L, back to back, on my Cool J, Ice Cube, it's a good day, ooh  
Good space (Good space)  
Smoke away the pain and have a good day (Good day)  
Tired of bad bitches, need a good bae (Good bae)  
L, L, back to back, on my Cool J, Ice Cube, it's a good day, ooh

Text from my ex, hella pressed, bring me stress  
Says "Delivered," but it's read, she don't know, let her guess  
If you wanted my attention, send me what's all on your chest  
Look at these, come to me, not together, still have sex  
I'm an irregular nigga doin' irregular shit  
Keep it a hundred, not gon' lie though, I love regular chicks  
You can keep the BBL, I love that natural thick  
You ain't gotta have an ass, lil' booties matter and shit  
Back in that mode, I'm still reachin' goals, what you reachin' for?  
It's goin' down like a Nitti beat, she touchin' her toes  
Always pussy, money, weed, what you think I'm grindin' for?  
Gotta take her out my three, even if it round to four

Can't overcompensate, if it's fake, I can't relate  
Who better? There's no debate, smoke is free, I brought the vape  
Fuck the album, drop a tape, locked in, I can't escape  
Blow it down, meditate, higher shit, levitate (Oh yeah)

I'm in a good space (Good space)
