Morray

Yeah, mm-mm

I done been so low, yeah

Ayy

I done been so low, I feel like I'm back where I started  
Takin' care of me, the only thing that seems the hardest  
Sick of bein' lied to, just tried bein' honest  
Gotta show the action right after the promise  
I done been so low, I feel like I'm back where I started  
Takin' care of me, the only thing that seems the hardest  
Sick of bein' lied to, just tried bein' honest  
Gotta show the action right after the promise, honestly

Tired of feelin' pain, that shit feels insane, foggin' up my brain  
So much has changed, but the bullshit still remains the same  
Don't wear the chains, I took off the blame for happiness and pain  
Not a plan of the industry, but numbers look the same  
So many people I done fucked with now I just can't fuck with  
Call it intuition, if I feel weird, I can't trust it  
Shiver me timbers or even worse if you get busted  
Right hand to God, lately I ain't someone you should fuck with  
So many motherfuckers left, don't expect no one to stay  
I can't save a fucker's soul but my own, that's why I pray  
Feel like I'm fightin' twenty battles every motherfuckin' day  
Even when I'm in my home, guard up, I don't feel safe

I done been so low, I feel like I'm back where I started  
Takin' care of me, the only thing that seems the hardest  
Sick of bein' lied to, just tried bein' honest  
Gotta show the action right after the promise  
I done been so low, I feel like I'm back where I started

I'm from where I'm from, not many from where I'm from  
Get your lolly popped if you ever try and act dumb-dumb  
Avoidin' all the fires 'cause these haters want me well done  
I got my success fees, when I win, what I'm gon' tell them?  
Feels like a long wait, I hate this mind state  
Tired of stressin' all day, can someone help me?  
I ain't got the answer, Sway, life been in disarray  
Sunday to Saturday, strong man, I must betray  
Think I'm too passionate, I'm always the last they pick  
Until they call my number, then they love me when I score 'em six  
Time to be a starter, had my time when I explored the bench  
Man, I got too comfortable, the game I almost forfeited, oh shit

I done been so low, I feel like I'm back where I started  
Takin' care of me, the only thing that seems the hardest  
Sick of bein' lied to, just tried bein' honest  
Gotta show the action right after the promise
