

Headache

Morrissey

Do you take this headache
To be your amor?
La-la, la-la-la
La-la, la-la-la
To cherish and obey
Now and forevermore?
La-la, la-la-la
La-la, la-la-la

As long as you both shall live?
Till headache us do part?

With this headache
I thee wed
And thus, pronounce you dead
La-la, la-la-la
La-la, la-la-la
To have and to hold
In headache and in health
La-la, la-la-la
La-la, la-la-la

As long as you both shall live?
Till headache us do part?
"Basta!"

Man borne of woman
Has a short time to live
And it's still too long
And it's still too long
What God has joined together
Let no headache separate
I don't even like you

I don't like you
I don't like you
I don't like you
I don't like you
I don't even like you
I don't like you
I don't like you
I don't like you
