

Eastender

Morrisson

Steel Banglez
It's the Hocus Pocus Harry James

Daily offender, crazy Eastender, just stepped in the venue
I'm with the hyenas and if you're not with us then you're on the menu
The nice guy died, I remember the time you bit off my hand when I fed you
I can't act like Denzel, so if I don't like you, I won't pretend to
I'm so disrespectful, wanna give a rough childhood as my excuse
I'm trapped in my throwback pics with snakes, get the animal rescue
Where I'm from it's kill or be killed
And where I'm from, my shooters will get you
Fell in love with a girl called Bonnie
And I knew you was the one when I met you

She's everything, she's special
That's my driller and that's my bredrin
No cap, she's a ride or die
She can carry my kids if she carries this weapon
I got a house on my wrist and my necklace
I'm the landlord and your eyes are the tenants
I got three bussdown and three plains, my watches are lookin' like the 9-11s
Keep up girl, arch your back and bend it like Beckham
Like give me a second
Hold this suttin but I give her this [?]
It used to be Casio, now it's two Rollies, times have changed
And I nicknamed my AP, Uzi, because it's really loaded with a diamond face

Where I'm from it's kill or be killed
And where I'm from, my shooters will get you
Fell in love with a girl called Bonnie
And I knew you was the one when I met you

I been a real East London top boy way before Dushane and Ashley Walters
I'm in the weed house on Christmas day tryna make sure all of my trees get watered
The hood's gone mad fam, the hood's gone bonkers, I'm real schizophrenic with mental health problems
My bro grew up in foster care cause his alcoholic parents only cared about Fosters
Don't compare to these other white rappers, they may look like me but I ain't nuttin like them man
I shed blood, sweat and tears for this thing and they shed a little bit ink on their pen pad
I'm high on life, I feel jet lagged, looking down at man that pray on my downfall
All my young boys get money and they're changing box like public transport
