

Against the Origin

Morta Skuld

As we fight through the lies
To find the truth
You poisoned my mind
For better, for worse - i can't survive

Control us, erase us, destroy us
You hate me, you shun me, you fear me
Control us, erase us, destroy us

I'm fighting from within
To find another way
I'm so numb to your talk
And the words that betray - we're not the same

Control us, erase us, destroy us
You hate me, you shun me, you fear me
Control us, erase us, destroy us

On the way to the edge
To find a better way
Falling from grace
You're not the hand of God - never the same

Control us, erase us, destroy us
You hate me, you shun me, you fear me
Control us, erase us, destroy us

Your every breath is a lie
Your every lie is a brath
Your time will come
Destroy yourself
Your breath is a lie

Destroy yourself
