

## Scars Within

Morta Skuld

Sick of suffering every day  
Destroy the cycle every way

Every scar is a victory  
Manipulate with guilty hands

We are who we are but we don't have to be  
Will you remember me through the centuries  
You will surrender to me or pay the price  
Can you see into me, can you see through this

We live our lives every day  
We feed off what they say

Using your own flesh and blood  
Manipulate with guilty hands  
Scars within - scars within  
Manipulate - manipulate
