

Doomed to Annihilation

Mortal Sin

Breakdown the mandatory boundaries
Run for your lives
Prepare for imminent destruction
No one survives
Save all the women & children
We can't replace
Shoot down the dissident aggressor
God save our race

Prepare to die - Doomed to annihilation
We will defy - Doomed to annihilation
We testify - Doomed to annihilation
We live the lie - Doomed to annihilation

Enter the refuge of the enemies
Shackled in chains
Feed all the violence & the hatred
Run through their veins
The stench of burning human bodies
Fills up the air
No fear of living with the dying
No need for prayer

Prepare to die - Doomed to annihilation
We will defy - Doomed to annihilation
We testify - Doomed to annihilation
We live the lie - Doomed to annihilation

They won't let go they're in denial
They're only young but they're prepared to die
Soldiers marching to the line
Mercenaries lost in time
Soldiers marching to the line
Mercenaries lost in time

One chance for reconciliation
Turning back time
Soldiers who represent their nation
Killed in their prime
Lost souls returning to the trenches
Guilty & free
Dead men determined to be heroes
Posthumously

Prepare to die - Doomed to annihilation
We will defy - Doomed to annihilation
We testify - Doomed to annihilation
We live the lie - Doomed to annihilation
