

## Allegría

## Mortemia

Hey, I hear you  
I hear you in the wind  
And hey, do you hear me too  
I hope that more than anything  
I still see you near me  
I still can hear you calling my name  
Every day

Hey, I feel you  
I feel like holding you  
And hey, the rising moon  
Brings out the shadows all too soon  
I still see you near me  
I still can hear you calling my name  
Can't you stay

Allegría, Allegría  
Your memory lives within my soul  
Allegría, I am calling your name  
I'm asking you to stay

Hey, where are you  
I feel like losing you  
And hey, as the days go by  
Still don't wanna say goodbye  
I wish you could still see me  
I wish you could say you're coming back to me  
Can't you see, I am here

Allegría, Allegría  
Your memory lives within my soul  
Allegría, now I'm screaming your name  
I'm asking you to stay  
Allegría, Allegría  
Your memory lives within my soul  
Allegría, I am screaming your name  
I'm begging you to stay
