

Safe with Me

Morten Harket

Like a call of the wild
You're a part of me
Like a dark road in the night
That no one can see

But you had to, had to be free
And I had to be, had to be me

You are safe with me
You are safe with me
You are safe with me
You are safe with me

I get potions of time
Now I don't hurry
Can't you walk worried light
Into the heart of it?

And it comes to me, comes to me
Like a science dream
And it used to be how it all begins

You are safe with me
You are safe with me
You are safe with me
You are safe with me

Will you stay with me?
Will you stay with me?
Will you stay with me?
Will you stay with me?

You are safe with me
You are safe with me
Into the heart of it
Make it wrong, make it right
You are a part of mine

You are safe with me
You are safe with me
You are safe with me
You are safe with me

Like a call of the wild
Will you stay with me?
Will you stay with me?
Like a dark road at night
You are safe with me
You are safe with me
