

# Stay

Morten Harket

Stay  
I say it as a friend  
He can handle the daylight  
But the night has its way

Touch him  
Like no one did before  
No fingerprints on the dew  
So stay  
Whatever you do

Watch him laughing  
Ooh he can't help it  
He sees through the eyes of a child  
When he sees you

Baby  
The town you come from  
You said you'd like to leave  
Then say  
Where you gonna be

Do you see me  
In your sleep  
The dreams you're dreaming  
Please be gentle, oh be gentle  
There can be no other  
Down so deep  
But you do see me  
Do you know what to keep  
Do you?

So stay...
