

## Extra Uterine Pregnancy

Mortician

Open stomach, torn and bloody  
Repulsive smell, your innards are rotting  
The dissection case with forks and spoons is provided for your  
mangled womb  
Inside succus, guts, and bile, the molten baby being kept alive  
I cut its shrunken head in two and drink from a cup its rancid  
juice

I would like to rip it out and raped with my tools  
I smash a hammer to its head and beat it until it's dead

I astraddle mother's legs  
Her cunt is corroded and red  
I slide my hand inside her vagina and eat the embryo without na  
usea  
Baptized your dead baby in its erupted chyme  
Realize it can't be reanimated and its dead was slow and fine
