

## The Flu Virus

### Mortification

The flu virus, it's hit or miss  
Do you, have the faith?  
In God or man

Body aching, bones asleep  
Veins are pumping, I think I'm sick  
Just precaution, you must take  
Lay around in bed all day  
Release comes when you pray  
A prayer of faith, when you're sick

The flu virus, immunisation  
Can't control the next attack  
Just like salvation  
You must know who you are  
Or Satan comes to steal your joy

Take your medication  
Faith in God and modern ways  
God gives us all a brain  
Take the shot but stand in Him
