

Underdog

Mortiis

that big strong man created a god so he could be a
little boy
but the big strong man soon turned his back and left
behind his broken toy

if that big strong man built a big strong house he
wouldn't have to be so scared
but the big strong man walked a hundred miles left it
unfixed and unrepaired.

it begins, it begins with you.
i cannot close, i cannot close you out.

what's crawlin underneath it all (4x)

that big strong man he told his sheep to come to him
when the line was long
that big strong man said (?) has made him strong.

that man he can't seize (?) but a man to me with a big
strong man from the big black book
why do they believe it if they cannot see
never once a thought for the lives he took.

i run away from here
if I could cope there must now be hope
yeah

what's crawlin underneath it all (4x)

what's crawlin (8x)

what's crawlin underneath it all (4x)
