

To Your Arms

Mosaic MSC

I don't deserve this
Beautiful and divine
Love of my father

You are deserving
Of all that I have to give
Jesus, you're worthy

When I lose the road
You're the place I know

I'm running straight to your arms
I'm running straight to your presence, Jesus
I'm coming out of the dark
My heart to your heart
Into your arms

Into your arms

I cannot fathom
How faithful you are to me
You never waiver

So this is my posture
Eyes lifted to the sky
You are my compass

When I lose the road
You're the place I know
You're the place I know

I'm running straight to your arms
I'm running straight to your presence, Jesus
I'm coming out of the dark
My heart to your heart
Into your arms

Right from the start
Your heart was chasing after me
I can't deny your love
It brings me to my knees

And all at once
Your spirit's crashing into me
There's nothing like your love
There's nothing like your love

Right from the start
Your heart was chasing after me
I can't deny your love
It brings me to my knees

And all at once
Your spirit's crashing into me
There's nothing like your love
There's nothing like your love

There's nothing like your love
Nothing like your love

Right from the start
Your heart was chasing after me
I can't deny your love
I can't deny your love
It brings me to my knees

And all at once
Your spirit's crashing into me
There's nothing like your love
There's nothing like your love
There's nothing like your love

There's nothing like your love
Brings me to my knees
Running straight to your arms
