

# Your Love

Mosaic MSC

Your grace broke the dark in our lives  
And now You can sift through our hearts  
There's nothing to hide from Your love  
You see the beauty in our scars

You're endless in embracing love  
You break through the doors of our souls  
And now we are freed by Your strength  
We find the hope in Your name

Your love, Your love is here  
It overcomes all of our fears  
Your love, Your love is here now  
And as we sing, You will embrace

With mercy You conquered it all  
Your sacrifice more than enough  
The depths of Your love give us life  
And now we are found in You

Your love, Your love is here  
It overcomes all of our fears  
Your love, Your love is here now  
And as we sing, You will embrace

There is nothing to fear, no  
Oh, Your love, Your love is here now  
Oh, Your love, Your love is here  
Your love is here now, oh

Your love, Your love is here  
It overcomes all of our fears  
Your love, Your love is here now  
And as we sing, You will embrace
