

Change On Me

MoStack

Hey yo, broski
Yo, broski
Do me a favor, feed the man dere some slugs and snail's like a Frenchman
I don't give a fuck if he's hench, man
It's G-Foundation, the real Rehng Tehng gang
I'll bag for them, I'll never turn my back on them
Ha! (Rxwntree)
Oh ma-ma-ni, na-na-na
Yo this ain't a diss track
Don't let these niggas distract
It's a message, nothin' personal, it's not business at the same time
You see my friend turn opp, still cleaned him like a mop
If I get a booking I still pull up to your block
Big Stakka, I ain't lookin' for you, not a lacker

I hopped off the car then I hopped on the bike
I couldn't find the opps and I circled twice
I told you do your research, and you didn't revise
You see me on the 'Gram and they think I'm nice
I'm traumatised, I got a lotta pain on me
You tried to sell dreams, I ain't got change on me
Why my friends have to change on me, uh?
No more crying, it stays on me

Kindness gets taken for weakness
And that's why my feelings are secrets (It hurts inside)
Deep down I hate that you're leavin'
But you will never know, I ain't speakin' (Got too much pride)
I know I got some feelings but I just wanna hide them
I listen to my friends, I'm gon' end up just like them
Hopped off the plane, now I'm chillin' near the sunset
When I'm out I got a whole different mindset (Bah)
Still have to talk with the violence, uh
Broski hit 'em with the silencer (Ooh)
We tryna talk the truth but they silenced us
We gon' let it rise and apply pressure
I've got a voice and I've gots to use it
Just came a from beef where there's knife and shootin'
Busy schedule but I can fit you in
Yo, baby, how you doin'?

I hopped off the car then I hopped on the bike
I couldn't find the opps and I circled twice
I told you do your research, and you didn't revise
You see me on the 'Gram and they think I'm nice
I'm traumatised, I got a lotta pain on me
You tried to sell dreams, I ain't got change on me
Why my friends have to change on me, uh?
No more crying, it stays on me

I kiss her forehead before I'm headin' out (Mwah)
You'll never know if I make it back (Pray for me)
Now who's your boyfriend when I ain't around? (Who's your boyfriend?)
'Cause someone else could be tappin' that
I can't really show my love for you
Because these ladies they're not no you
Yeah, if you're the bae now, you'll be the bae forever

Paige, I really like you, I hope we last forever
It's about me now, fuck the man before
A nigga tried touch bro then I swang my sword
Then he told me, "Bless", why you thank me for?
I hope you do the same for me, fuck the gangsta talk
These niggas indirect and I act like I don't care (Pussy)
I can't wait to catch him, I really have no fear (Loadin')
Poppin' everything if you pop out of nowhere
You're havin' a laugh, no dreams gettin' sold here (Pussy)

I hopped off the car then I hopped on the bike
I couldn't find the opps and I circled twice
I told you do your research, and you didn't revise
You see me on the 'Gram and they think I'm nice
I'm traumatised, I got a lotta pain on me
You tried to sell dreams, I ain't got change on me
Why my friends have to change on me, uh?
No more crying, it stays on me

You see me in nice clothes but that's doesn't define me
You know designer didn't design me
I like my girl stoosh, stuck up and grimey
Baby gyal, be rude, don't let 'em down politely
I ain't rid out for years, I've been here just dancin'
Let me ride out, bro, please, I'm askin' (Beggin' please)
The way he jump out it was ruthless
The man don't even know who booted
Booted, ah
Yeah
