

The Friend

MoStack

Watch the friend that you smoke weed
Watch the friend that you don't need
They're probably friends with the police
Watch the friend that you drink and you smoke with
Watch the friend that you bill and you roll with
Watch the friend that you chill and you smoke with
They're only friends for the moment

Mama warned me about the teefin' friends
Used to be bruddas, now we're beefin' them
I don't need nobody else, I'm fine just by myself
Real niggas holla cause they mean sumthin'
Fake niggas holla cause they need sumthin'
So, baby I'm fine just by myself, baby I'm fine just by myself

Where do I start from?
Everytime I come, my money get a hard on
My nigga pull up in a whip, where ya car from
Jumped out the spaceship, like he's Armstrong
Neil Armstrong, the streets ain't safe
Name one time when the henchman survive from a bullet cause of protein shake
s
On my own, I don't need mates
Straight like bigga, I don't need no hitman
I'm a big deal in my ends
I can see the bitch in a man, and I can see a snitch in a friend
That nigga didn't warn me
When he saw the CID's in the ends
CID's in the ends
What's the fun in havin' tints in a ride
Watch your friends face, when you pull up outside
Might get a smile if you're lucky
Can't trust dogs, that you knew from a puppy
From a puppy

Mama warned me about the teefin' friends
Used to be bruddas, now we're beefin' them
I don't need nobody else, I'm fine just by myself
Real niggas holla cause they mean sumthin'
Fake niggas holla cause they need sumthin'
So, baby I'm fine just by myself, baby I'm fine just by myself

She swallowed my kids, I'm a D2
And she turn around and said "Mo, I don't need you"
Don't bite the hand that feeds you
Yeah, don't bite the hand that feeds you
I have less friends now, I had more in the past
And some bad girls, but them girls never last
I go weight in the car
I might cop an Audi TT, just a two seater for me and me

Watch the friend that you drink and you smoke with
Watch the friend that you bill and you roll with
Watch the friend that you laugh and you joke with
They're only friends for the moment

Mama warned me about the teefin' friends

Used to be bruddas, now we're beefin' them
I don't need nobody else, I'm fine just by myself
Real niggas holla cause they mean sumthin'
Fake niggas holla cause they need sumthin'
So, baby I'm fine just by myself, baby I'm fine just by myself
