

Pass the Clock, Part 3

Mostly Autumn

I've never seen you look that way
Before
I've never seen you look that way
Before

And you'll never slow down
I know you'll never slow down
No you'll never slow
Down

I know you're gonna touch the sun
I know you're part of everyone
I know you're never too far
To send the "three's" on down to me

I know you're on your way home
Let it be
The way that we grow

Look at all the time
Well I know we had the time
All the time and we're still inside the time
All the time well I know we
shared the time
Yours and mine and we're still
inside the time
At the time and I know we
have time
Hanging in the time as we're
Passing down the time. ...

I know your on you're way home
Let it be
The way that we grow
