

No Blues For You

Mother Love Bone

I hold emotion, emotion holds it's own
It's time to sing true like you are beautiful
Come play emotion anytime we're low
You know I love you like you are beautiful
Guys talk about you and time revolves
Your breath goes rancid like my penis head know
And worms are crawling around my door
My baby love me like a note she'd know

These are no blues for you the cowboys singin
These are no blues for mom and dad
I am stupid me forever it seems
These are no blues things will be alright
Things gonna be alright

Come on and play me I am a game
I loose the battle of the Judas you're playing
Keep borrowing your cards and press the beans
You know I love you baby come on play with me
I'll talk about you in alleyways
She shootin cocaine like a bitch on a string
She drink my whiskey in fact add my boys
She takes me to little bars and a-leaves me out to dry
Leave me out to dry

These are no blues for you the cowboys singin
These are no blues for mom and dad
I am stupid me forever it seems
These are no blues things will be alright

These are no blues for you the cowboys singin
These are no blues for my mom and dad
Anger about the look of me forever it seems
These are no blues things will be alright
Things'll be alright

I said things'll be alright
All night
