

## Good At Loving You

Mother Mother

Nobody know that little spot that I know  
Nobody get you hot like that, they too cold  
Nobody get your dumb, dumb, dumb little jokes  
Nobody know you like I know you, no

I'm good at loving you  
So good at touching you  
I'm not some mister, I know everything  
I'm just good at loving you, loving you babe

Nobody get me dancing on the table like you do  
Nobody get me crying like a baby like you done  
Nobody make me run, run, run for the truth  
Nobody know me like you do, do, do

You're good at loving me  
So good at touching me, yeah  
You're not some missy, I know everything  
You're just good at loving me, loving me babe

Let's try again  
Forget our friends  
Cause they don't know, no, no, no  
They just pretend

I'm good at loving you  
You're good at loving me  
We're not those people who know everything  
We're just good at loving each other, baby  
Let's focus on our strength  
Let's focus on our strength

I'm good at loving you  
I'm good at touching you  
I'm not some mister, I know everything  
I'm just good at loving you, loving you babe
