

# Had It All

**Mother Mother**

I had it all laid out  
I had it all locked down  
I had it all stood up  
Then it all fell down  
I had it all  
I had it all  
I had it all  
I had it all  
Looking back upon the past  
At all those pleasant things I had  
I realize I move too fast  
I have control and then I crashed  
I had it all  
I had it all  
I had it all  
I had it all  
Don't you know every little thing can get away  
Get away from you  
And get away from me  
Move too slow  
Every little thing will get away  
Oh it does  
Yeah it sure to do  
Yeah, right  
Mama taught me not to talk  
But I was chewing on the phone  
I had it all right in my mouth  
And then I let it all spill out  
I had it all  
I had it all  
I had it all  
I had it all  
I had it all laid out  
I had it all locked down  
I had it all stood up  
Then it all fell down
