

# Worry

Mother Mother

Baby, don't you worry  
I'm not lonely, I'm just alone

Baby, don't you worry  
I'm not angry, just throwing stones

You've heard it all before  
I play the same three chords  
But we still seem to forget all the words  
This happens time again  
Two lovers turn to friends  
A story told that doesn't really end

Baby, don't you worry  
I'm not crazy, I'm just crazy for you

You've heard it all before  
I play the same three chords  
But we still seem to forget all the words  
This happens time again  
Two lovers turn to friends  
A story told that doesn't really end

Baby, don't you worry  
Baby, don't you worry

You've heard it all before  
I play the same three chords  
But we still seem to forget all the words  
This happens time again  
Two lovers turn to friends  
A story told that doesn't really end

Baby, don't you worry
