

Another High

MOTHICA

Hi-high, hi-high

I swear I'm living purely out of spite
I do it just so I can say I tried
Fuck forgiveness, I want vengeance baby
Swear I'm gonna have you hypnotized
Ruin yours just like you ruined mine
It's my toxic masochistic daydream

The crush the feelings rushing back
I recreate the love I've lacked
And when it doesn't work out do it all again

I'm just looking for another high
Just another way to waste my time
I'm just looking for another high
Hi-high, hi-high
I'm just looking for a way back down
Something loud for me to drown the sound
A sweeter poison 'til I'm under ground
Hi-high, hi-high

How do you do it? How to keep going?
It's all consuming to live in the moment
How do you live when you don't wanna die anymore?

The crush the feelings rushing back
I recreate the love I've lacked
And when it doesn't work out do it all again

I'm just looking for another high
Just another way to waste my time
I'm just looking for another high
Hi-high, hi-high
I'm just looking for a way back down
Something loud for me to drown the sound
A sweeter poison 'til I'm under ground
Hi-high, hi-high

Hi-high, hi-high, hi-high, hi-high
I'm just looking for another high
Hi-high, hi-high, hi-high, hi-high
I'm just looking for another high
Hi-high, hi-high, hi-high, hi-high
High

I'm just looking for another high
Just another way to waste my time
I'm just looking for another high
Hi-high, hi-high
