Blackout

MOTHICA

Oh, they tried their best to warn me (tried to warn me)
That you would only turn me blue (Turn me blue)
But nothing could've stopped me (Nothing could stop me)
From falling right into you (Into you)

Hold me down
I'll do anything you tell me to

Baby, when I black out
I'm not coming back down
I've always been my own worst enemy
Blame it on my own anxiety

I can barely be around you (Be around you)
It's the hardest thing I'll ever do (Ever do)
Bound to live without you (Live without you)
'Cause I've got better things to do (Things to do)

Let me out
After everything you've put me through

Baby, when I black out
I'm not coming back down
I've always been my own worst enemy
Blame it on my own anxiety

I'm losing my magic
Not thinking, calm me down
In love with my madness
Until I drown

Baby, when I black out
I'm not coming back down
I've always been my own worst enemy
Blame it on my own anxiety
