

Burnout

MOTHICA

I'm too good at losing
Staring at the bottle
Like it has something to say
Living an illusion
Then I hit the bottom
And euphoria fades
When everybody's talking
I don't wanna listen
Cause I feel out of place
I wish they'd say it to my face

Are you ever gonna change?

I don't wanna burnout
Am I livin' too loud?
I don't wanna burnout
I don't wanna burnout so I keep playing with fire

I'm not one for saving
I don't want your sorrow
Got enough for myself
Now they wanna tell me
They could probably fix me
Like there's band-aids for hell
That I've been through
So I keep walking
Till there's nothing but myself

Am I ever gonna change?

I don't wanna burnout
Am I livin' too loud?
I don't wanna burnout
I don't wanna burnout so I keep playing with fire

I'll take a little more, a little more
To slow down my head from thinking too much
How far I've been before, I've been
But I'm still going
My head is spinnin'

I don't wanna burnout
Am I livin' too loud?
I don't wanna burnout
I don't wanna burnout so I keep playing with fire
